

Montréal le 25 septembre 1974

Hello Ralph and Sherry

While i am in front of my typewriter untill the morning, why not send a word to you. Since i have been back in Montréal i have been so busy that i had no time of watching the tapes made at the Center. Anyway i have a lot of different projects running, like a conference on the electronic image at the musée d'art contemporain, in which i will need the participation of Walter, Woody, Steina, and others. The whole thing is intended to be didactic. It is about time that video art stop mystifying people.

What is reality? The phone is ringing...

Bye, bye

Jean-Pierre

the tired young man
